Moving on Up Transfer Support Pack: Information for Parents

There are a number of transitions that pupils will have to go through during their time at school. Your child's transfer from Primary to Post Primary school can be an anxious time for the family. Transitions can provide many challenges for our children with ASD and therefore it is important that we plan effectively to ensure that these transitions happen as seamlessly as possible.

This pack aims to support parents and pupils moving from Primary to Post Primary by providing a range of strategies to address some of the challenges that our young people may experience. In addition to the pupil orientated resources, this pack contains an Individual Pupil Profile which can be completed by you and shared with the Post Primary school. The aim of the Individual Pupil Profile is to give the Post Primary school as much specific information as possible in relation to the current strengths and challenges experienced by your child. As well as the resources contained in this pack, online training workshops are available for both parents and school staff.

How to access Online Training for Parents

Registration

Parents may view the online training via the Online Training tile in RTU, by clicking on the following link:

<http://www.easds.org.uk/apply/application/?id=a5b4e5ae8ca68340>

Insert the access code E@par3nts.

Evaluations

We hope that you find the AAIS Moving on Up Transfer Resource Pack helpful in supporting your child through the Transfer process. We would appreciate any feedback in the evaluation that you will receive following completion of the online training video. The evaluation can be accessed using the following link:

<https://www.surveymonkey.co.uk/r/P7MOVUP>
